

A group of people are gathered outdoors for a summer party. They are standing on a wooden deck or patio, surrounded by lush greenery and trees. String lights with blue and white bulbs are strung across the scene. The people are dressed in casual summer attire, including plaid shirts, striped tops, and jeans. Some are holding drinks, and one person is raising their arm in a celebratory gesture. The overall atmosphere is festive and relaxed.

Summer Party

2025

Green Creative Workshop

Get creative and make a difference to the environment!

Build insect hotels, bird houses and/or mini greenhouses to create valuable shelter for native animals and space for plants. Use paint and decorations to create your own little work of art - individual, sustainable and meaningful.

This is a great way to playfully contribute to biodiversity conservation - and you can take your work home and give nature a new home!

Solar Buddy

The social impact project for your summer party: Build solar lamps and bring light into the lives of children living in energy poverty.

With your support, they will have a sustainable source of light that will improve their everyday lives - for education, safety and a brighter future.

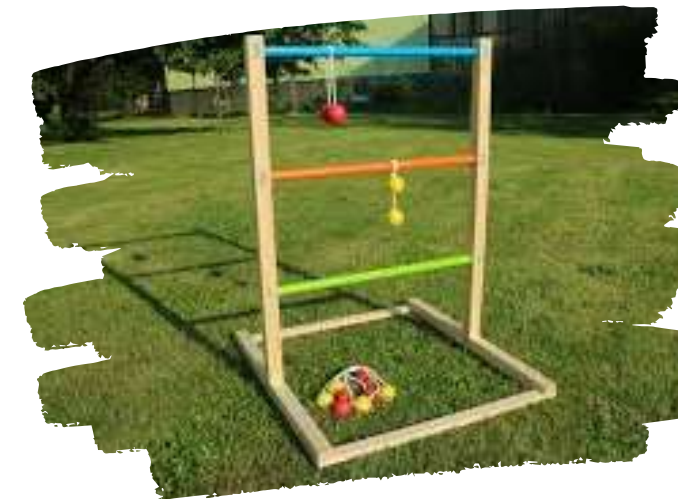

Each solar light you build will be donated after the Summer Festival and will make a real difference. A creative, meaningful experience that shows how you can do good together!

Summer Games

**Fun for your summer party!
Relaxing, entertaining and ideal for a
successful day outdoors:**

Our summer games include popular outdoor classics such as Swedish chess, cornhole and more. Whether you're looking for skill, precision or just plain fun, there's something for everyone - perfect for exciting duels, social rounds and casual entertainment in between.

A great way to keep the spirits up and add some fun to your summer party!

The Big Picture

**Creativity that connects:
Something great is in the making!**

Guests paint individual pictures using our creative templates. In the end, all the works come together to create a stunning piece of art. With brushes, paints and your own interpretation, every contribution counts and makes the result unique.

A colourful highlight for your summer party that is not only fun, but also memorable!

Costs and general data

Green Creative Workshop
